January 8, 2026

Construction Impact Notification
Belleville Terminal Redevelopment

As construction of the Belleville Terminal continues to progress, the next phase of piling work is scheduled to begin on Monday, January 12, 2025.

This phase requires **updated working hours between 7 am and 7 pm**, **Monday through Friday**, with additional work occurring **Saturdays between 10 am and 7 pm as required**. All work will be performed within the site perimeter sections 1 and 2, as previously shown in the attached map.

During this phase of work, we have consulted with an acoustic engineer to identify measures to reduce noise impacts for surrounding businesses and residents. These measures include noise monitoring, installation of perimeter noise barriers, and localized noise barriers around stationary equipment such as air compressors. Vibration monitoring will occur on site and at surrounding locations to ensure work stays within safe limits.

Throughout the duration of piling activities, a marine silt curtain has been deployed and will continue to be maintained to ensure all activities remain within site limits.

What to Expect

Timing

- Phase 2 activities: January 2026 to Summer 2026.
- Phase 3 activities: Starting Summer 2026.

Hours of Work

- Monday to Friday: 7 am to 7 pm
- Saturdays: 10 am to 7 pm

Traffic

- No vehicle or pedestrian traffic disruptions are expected.

Impacts

- Intermittent elevated noise during piling activities.
- Increased construction activity and vibration.

Thank you for your patience and understanding while we complete this important work.
