

Construction Notification | August 13, 2026

Early Morning Concrete Pour

Project area in red and truck staging in blue.

Timing: August 17

Hours of work: 3:30am to 1pm

Concrete pours are planned as work on the building foundation progresses. Due to high temperatures during summer months, a number of these concrete pours will begin during the early morning hours.

To allow for concrete pour activities, truck staging can be anticipated on Pendray Street throughout the day until 1pm.

What You Can Expect:

- Increased concrete truck and construction-related noise and traffic
- Concrete pump truck anticipated to arrive at 3:30am, concrete trucks to arrive at 4am
- Elevated noise from concrete trucks (back-up beepers will not be used before 7am)
- Traffic control personnel will be on site to manage vehicle movements and ensure the safety of workers and the public

Thank you for your patience and understanding as we build the new terminal.
