

## Construction Notification | August 24, 2026

### **Modifications to Tower Crane**

Locations of upcoming tower crane work activities

**Timing:** August 29-30, 2026

**Hours of work:** 9am-7pm

As part of ongoing activities to support the construction of the terminal building, work will take place on Saturday and Sunday to modify the tower crane currently on site.

Modifications are necessary to increase the height of the crane and replace the horizontal section. This work also requires trucking additional equipment to and from the project area.

### **What You Can Expect:**

- Moderate levels of construction noise during daytime working hours
- Increase in construction-related traffic to and from the project area
- Traffic control personnel will be on site to manage equipment entering and exiting the site and help ensure the safety of workers and the public

Thank you for your patience and understanding as we build the new terminal.
