POMERLEAU

Belleville Terminal REDEVELOPMENT

BRITISH COLUMBIA | transportation investment corporation

Construction Notification

Extended working hours during low tide

Work activities to take place on the marine piles

Timing: November 16 (morning), November 19-21 (evenings)

Hours of work: 5:00 am to 7:00 am, 7:00 pm to 9:00 pm

As construction of the Belleville Terminal progresses, work will occasionally be required during the early mornings and evenings. Certain activities can only take place during low tides in order for crews to access the frames attached to marine piles.

Work will be limited to the use of cranes, generators and welding activities. All activities will take place within the project site.

Additional work may be required outside of regular hours throughout November. Construction updates are available at: https://bellevilleterminalproject.ca/construction/current-work/.

What You Can Expect:

- Minimal levels of construction-related noise
- Lights to be directed at the work area, away from residents and marine traffic

Thank you for your patience and understanding as we build the new terminal.
